B. Bahl Must Wealthy Widow Secure Bondsmen; Will Wed Prince Moore Paroled

Peddler Given Until Monday To Secure Bondsmen—Bryce Moore Placed on Probation—District Attorney's Office Not a Collection Agency.

Benjamin Bahl, who was instructed by the city court to pay \$25 weekly toward the support of his wife and family but who succeeded in having that amount temporarily reduced to \$16 a week by application to the county court on the grounds that during the winter months he was unable to earn enough to make the payments, again appeared in county court Wednesday afternoon at which time he was to have given bond in the sum of \$500. Bahl was unable to secure bondsmen to go his bond for \$500 and was willing to give himself up and go to jail. He is engaged as a peddler and in the winter months he said his business was poor.

Arthur B. Ewig, who appeared for Mrs. Bahl, stated that he did not desire to see Bahl in jail and if put there it would do his client no good. What he wanted was to have payments made toward the support of the family and if the defendant was in jail he certainly could make no payments. He requested that the court give Bahl until Monday to attempt to secure bondsmen before sending him to jail. The request was granted.

Moore Placed on Probation. Bryce Moore of Wawarsing, indicted for grand larceny, second degree, and who pleaded guilty on Tuesday, appeared for sentence. Lloyd R. LeFever, who appeared for Moore, who is a justice of the peace, stated that the defendant had made restitution and the complaining witness had been satisfied. He requested that sentence be shown.

In reply to that statement District Attorney Traver said that he had talked to the complaining witness, Mr. Rothstein, and learned that the defendant had paid some money and given a note for the balance. He informed the court that he was not making any recommendations in the case whatsoever and he said that when the case was disposed of and sentence imposed he was going to take no further part in the case. His duties ceased when the case was submitted to the court and sentence imposed. He said he was not going to take any further part in the case in the event the note was not made good and he did not intend to permit the office of district attorney to act as a collection agency. The complaining witness, he said, had made numerous demands on the office to assist in getting the money due from the defendant but as the district attorney's office is a prosecuting office and not a collection agency he had interested himself only in the prosecution of the criminal charge. The note given apparently was satisfactory at the present time to the complaining witness and should the note in the future not be paid he did not propose to enter his office in the matter in any attempt to collect the amount due and any settlement made between complaining witness and the defendant would have to be made on their own part.

In view of the record of the defendant Judge Fowler stated he would suspend the imposition of sentence and place Moore on probation to Probation Officer Service to receive instructions from him as to where and how often to report.

Church Blocks Opera Center Plan

New York, Jan. 24 (AP).—A church, the members of which feel they have a "sacred trust" to maintain their edifice in the heart of New York, threatens to prevent a realization of the Metropolitan Opera center planned by John D. Rockefeller, Jr.

The Collegiate Reformed Church of St. Nicholas, at Fifth avenue and Forty-eighth street, is one of the few parcels of land in the three blocks, from Forty-eighth to Fifty-first streets, between Fifth and Sixth avenues, not included in the \$3,000,000 a year lease by Columbia University to Mr. Rockefeller.

The Rev. Malcolm MacLeod, pastor, and Charles Stewart Phillips, treasurer, declared the church repeatedly has declined to sell and has no present intention of selling or leasing the property.

Dr. MacLeod said he believed landmarks in New York, particularly churches, should not be torn down. "The material things are great," he said, "but the spiritual things are greater."

"There are some things money cannot buy, and I think the Collegiate Reformed Church of St. Nicholas is one of them," he added.

The spire of St. Nicholas Church often has been declared one of the most beautiful in the world. The bell in its steeple was cast in Holland in 1738. The church is reported to have at one time refused \$7,000,000 for the site.

Drunken Driver Was Fined \$200

Frederick J. Cochran, who said he resides in New York, was arrested on Wednesday by Officer Bowser who charged Cochran with driving a car while intoxicated on Albany avenue.

The car was placed in the police garage and Cochran spent the remainder of the night in the county jail. This morning before Judge Shufeldt in police court he entered a plea of guilty to the charge and was fined \$200. He stated it was the first time he had ever been arrested.

ESCAPED MURDERER CAUGHT NEAR PRISON Ossining, N. Y., Jan. 24 (AP).—George Price, one of three prisoners who escaped from Sing Sing prison Tuesday night, was caught this morning about a mile from the prison walls. The other two were apprehended yesterday.

When the prison gate had swung behind him once more Price asked: "What about the state?" He had had nothing during his 20 hours of liberty.

Price was serving from 26 years to life for second degree murder.

Break in Water Main. A break in the city water main on Wilbur avenue, near School No. 1, was reported Wednesday evening to the police department who notified the water board.

Relief from Cold For Middlewest

Chicago, Jan. 24 (AP).—Warm northeast winds, which will blow away the severe cold that has cost 11 lives in the middlewest, was today's promise to storm-bound states suffering the worst rigors of the winter.

Sufficient snow to make footing secure was forecast for Chicago while a rising temperature to from 10 to 25 degrees above zero was predicted.

The absence of snow here was in contrast to the intense cold and heavy snow that paralyzed traffic in parts of Michigan, where the cold accounted for five lives. Minnesota had four dead and two deaths in Chicago were attributed to the weather.

The lowest temperature yesterday was at Butte, Mont., where the mercury showed 55 degrees below zero.

THANKSGIVING SERVICE FOR KING'S RECOVERY

London, Jan. 24 (AP).—With King George continuing his slow but satisfactory progress, there was talk today over the probability of a national thanksgiving service at St. Paul's Cathedral. Such services were held twice during the reign of King Edward VII.

Bognor, where the King is going to recuperate, has been making preparations for an influx of visitors expected to be attracted to the seaside resort by the monarch's presence.

TROLLEY COMPANY PASSES PAYMENT OF BOND INTEREST

The Kingston Consolidated Railroad Company, owner of the trolley line in this city, passed payment of interest on its bonds on January 1, deciding to conserve the cash on hand to meet operating expenses and emergency expenses which may arise.

AMBUANCE CALLS HERE

Wednesday the city ambulance removed Mrs. Arthur L. Smith from 15 Ponckhockie street to the Kingston Hospital; John Sheller from 25 Franklin street to the Benedictine Hospital, and Miss Minnie E. Rieley from 27 Warren street to the Benedictine Hospital.

Booming Greene Liner America For Collector Rescues Florida's Crew During Gale

Albany, N. Y., Jan. 24 (Special).—Another Kingston man may succeed to the post of internal revenue collector of this district, once held by Roscoe Irwin.

He is George W. Greene, Kingston Academy product, and now a prominent factor in New York state Republican circles by virtue of his chairmanship of the Albany County Republican organization.

Greene may be an appointee of Herbert Hoover soon after March 4, as an outgrowth of a strong movement to oust from the collectorship the present incumbent, Cyrus Durey.

Durey succeeded Roscoe Irwin to the post when the latter's term expired in 1922, but has had trouble ever since with Republican organizations in this district because he would not yield to county chairmen in the matter of patronage. In fact, the opposition has mounted to a point where for the interests of party harmony, the President-elect may be prevailed upon to retire him in favor of someone more agreeable. Greene, in all likelihood, will be that someone.

It is understood here that Republican State Chairman Hill and William H. Hill of Blenheim, will consult with Hoover after his return from his Florida vacation, urging the necessity of a change.

Greene has been the backbone of a move to oust Durey, and because of this some quarters are inclined to fear it may prove detrimental to his chances. However, this view is not general, and as a matter of fact, is less prevalent outside of Albany county than right here in Greene's own district. County leaders are confident that in Greene, they will have an internal collector who will be more than willing to cooperate in the distribution of patronage.

Durey's home address is Greene Lake, Fulton county. He was appointed to his present post by President Coolidge.

Greene has been the generalissimo of Albany county Republican forces since his defeat for Congress in 1926 by Parker Corning, Democrat.

"Man Without a Country" in Jail

Cannot Produce Evidence of Citizenship—Has No Birth Certificate, But Only Affidavit Made by His Mother.

Cleveland, Ohio, Jan. 24 (AP).—Charles F. Knight lay in jail today, a deportable alien with no country to claim, even in deportation. He has been in jail four months and is waiting, while charity supports his wife and four children, for the United States and Canada to settle the controversy in which each denies him.

Knight can produce evidence of citizenship in no country in the world. He is held on a charge of illegal entry and his wife faces a charge of moral turpitude.

"The man without a country" came into the United States at Niagara Falls. Entry was made without a visa, he admits, because lack of funds barred him as a possible public charge, and because he was unable to produce a Canadian birth certificate. All he had was an affidavit made by his mother stating his age at the time of his enlistment in the Canadian Army.

The case came to the attention of immigration authorities when truant officers here sought out his eldest daughter, Margaret, 15, who had left school intending to marry. City officials notified the department of immigration and Knight was placed under arrest. That was last September. He has been in jail since because the Canadian government refuses to take him back.

Knight has no idea what he will do if he is unable to prove that he is a Canadian, and government officials admit he cannot be held in jail indefinitely.

Morrow Will Remain in Mexico

American Ambassador Desires to Finish His Work in That Country and Will Return to That Country.

Miami Beach, Fla., Jan. 24 (AP).—Dwight W. Morrow is to return to Mexico City soon and remain as ambassador for an indefinite period. This became known authoritatively today after he had conferred for two hours with President-elect Hoover.

This is in accord with the ambassador's own desire and also with that of the next president, who has a high appreciation of the work the former internationally known banker has been doing at Mexico City since his personal drafting by President Coolidge.

Time and again since Hoover's election, Morrow's name has appeared in the gossip as to the possible appointment for secretary of state to succeed Frank B. Kellogg, who has arranged to retire from public life on March 4.

However, the ambassador to Mexico is understood to have taken the position that his work in that country was unfinished and a similar view of the situation has been credited to the President-elect by those who have conferred with him recently.

Blackening Wife's Eyes Cost \$50

It cost Henry "Blue" Thomas, a negro, \$25 an eye for blackening the eyes of his wife, when he pleaded guilty to assault in the third degree when arraigned before Judge Shufeldt in police court today.

"Blue" was arrested Wednesday on a warrant sworn out by his wife, who resides with her mother at 15 West Strand. The assault occurred on January 13. When Mrs. Thomas appeared in court both of her eyes were badly discolored. "Blue" when asked by the judge if he had presented his wife with the discolored eyes stated he did so.

ROOSEVELT SHOWS GAIN

Albany, N. Y., Jan. 24 (AP).—A definite gain during the last twenty-four hours has been noted in the condition of James Roosevelt, son of the Governor, his physician, Dr. L. W. Gorham, said in a bulletin issued this morning. The young man, ill with pneumonia, passed a fairly comfortable night.

Presbyterian Cottage Service

Instead of the usual Thursday evening service the members of the Roundout Presbyterian Church will hold a cottage prayer service at 7:45 this evening at the home of Mrs. M. G. Holmes, 11 West Chester street.

Thrilling Rescue of Italian Freight-er's Crew Performed Almost Three Years to the Day of Another Rescue Against Heavy Odds—Searchlight Aided in Locating Freight-er.

New York, Jan. 24 (AP).—Triumph for a second time in a battle with the sea, Captain George Fried of the United States Liner America was headed toward port today with the rescued crew of the Italian freighter, Florida.

"Rescued full crew Florida. Total 32. Chief Officer Harry Manning in charge. Whole westerly gale. Life boats lost. Details later."

These staccato sentences of Captain Fried's message to the United States Lines last night told the essentials of the happy ending of a grim drama of the wintry Atlantic which opened when the America began her 350-mile race with death Tuesday.

The message recalled a similar communication sent by Captain Fried almost three years ago to the day when he told of the rescue of the crew of the British freighter Antiope against heavy odds of sea and wind.

Driving his ship through the welter of a midwinter storm and taking his bearing on the disabled ship by means of a radio direction finder, Captain Fried steamed more than a day and a night on his mission of mercy.

"Am standing by the S. S. Florida."

The long vigil kept by shore radio stations to learn the outcome of the race of the America to snatch 32 men from the threat of death was rewarded by that terse message at 9 p. m.

Searchlight Used in Locating Ship.

Before that there had been fragments of messages indicating that the America was feeling about in the darkness for the Florida with the nervous antenna of her searchlight.

The America wanted to know if the storm-wreath of the Florida could see the beam. It was three hours later that the liner located the object of her search.

As the searchlight of the America was focused on the Florida, so was interest in the contest between men and the elements focused on the Florida and her fate when it became known that the American Tanker Dannebrog, which also had asked for aid near where the Italian ship was foundering, apparently had surmounted her difficulties.

Another Ship Seeks Bermuda.

While pushing on toward Florida, the America's radio advised land stations yesterday that the Dannebrog's crew had rigged a jury rudder and were trying to make Bermuda.

The America's feat in locating the Florida and taking off the crew of the sinking vessel was emphasized by the fact that to other ships nearer at hand had been unable to locate her and had abandoned the search.

The Dollar Liner President Harrison, ending a world cruise, found herself running short of fuel oil while she sought in vain for the Florida. The German freighter York, which also had hurried toward the stricken ship when the appeal for help was sounded, reported searching eight hours before abandoning the quest.

Florida Concentrated on Wireless.

While the President Harrison and the York cruised on dead reckoning seeking the distressed ship, the Florida was concentrating the power of her emergency wireless set on giving Captain Fried her position.

The Florida, an Italian tramp steamer, was bound for an Italian port from Pensacola, Fla., with a cargo of pine pulp when disaster overtook her 300 miles east of the Virginia Cape.

The America was bound for New York when Captain Fried turned her south to answer the SOS of the Florida.

Rescued Crew Near Collapse.

New York, Jan. 24 (AP).—The New York American today prints a copy-righted radio dispatch from the steamship America saying the crew of the transatlantic Florida were near collapse when rescued.

"They were in a weak condition," said the dispatch. "Many of them were stripped to the waist and their clothing badly torn. The injured ones were hoisted aboard by breeches rig. All were very tired and nearing collapse."

The message added that the Florida was abandoned.

The dispatch said the rescue of the Florida's men was effected by Chief Officer Manning and eight members of the America's crew and required two hours.

Crew Forced to Swim.

A violent gull prevented the lifeboat from getting alongside the Florida and forced the 32 men of the freighter's crew to swim to the boat.

"Twenty-one are confined to the ship's hospital suffering from exposure and injury, only one of them in a serious condition. He is the chief engineer, who has a broken leg and fractured ribs."

The dispatch said the radio operator of the Florida was worthy of the highest commendation, as he spent three days continuously at his key.

PLAN EXPANSION IN AIR TRANSIT

More Speed for Mail and Added Comfort and Safety Promised.

Washington.—Important changes in the air map of North and South America, more speed for the air mail and added safety and comfort for the air passenger will be the outstanding developments in air transportation during 1929, according to forecasts made by the American Air Transportation association.

Beginning shortly after the first of the year new sky trails will lead southward to Cuba, the Canal zone, and on to the western coast of the southern hemisphere. New domestic lines will blend more closely the nation's flying routes. Operations will start over five combined mail and passenger routes and four lines devoted exclusively to passenger service.

A day will be clipped from the time of coast-to-coast transportation of merchandise and travelers, and Miami and Kansas City will assume new importance as air terminals.

Start Line to Bahamas.

Hopping 210 miles across Atlantic waters, planes of the Pan-American always have already started a combined mail and passenger service between Miami and Nassau in the Bahamas. The trip will be made three times a week in multimotored amphibians equipped to carry eight passengers.

Out of Miami, too, this company has started another line to San Juan, Porto Rico, with stops at Havana and Santo Domingo. The 1,440 miles between the extremities of this line will be flown by trimotored 14 passenger planes cruising at 125 miles an hour.

Another line has been opened out of Miami by the Pan-American. It provides bi-monthly service to Cristobal in the Panama canal zone, 23.7 miles away. With the delivery of new equipment the trips will be increased.

The first of the new domestic routes was started by the St. Tammany-Gulf Coast airways, extending the route previously operating between Atlanta and New Orleans to Houston, an additional air mileage of 319 miles.

With the completion of the government lighting a daily air mail schedule will be inaugurated between St. Louis, Kansas City and Omaha, a distance of 449 miles.

Strictly passenger service between the Atlantic and Pacific coast will be started early in the spring by the Transcontinental Air transport, which will inaugurate a combined air-rail schedule. A second transcontinental line will be opened jointly by the Universal Air lines and the Western Air express. Other strictly passenger lines will link Boston and New York, and Greensboro, N. C. and Atlanta, Ga.

New Planes Set Record.

New fleets of speedier ships will be put in operation by the Boeing, Robertson, N. A. T. and Varney air lines carrying the mail out of Chicago to St. Louis, San Francisco, New York and from Salt Lake City to the Pacific northwest.

Two of the eight new Falcons to be put in service by the National Air transport recently sped to a new record for the north-bound trip over the Chicago-Dallas route, attaining part of the way a speed of three and a half miles a minute. The 397 miles was covered in six hours and 42 minutes, an average speed of nearly 150 miles per hour.

Pilot George B. Grogan, on the section of the route from Wichita to Kansas City, flew over the 173 miles in an hour flat. Edmund Matheba continued to Chicago, setting up a new record for that leg with a flying time of two hours and 37 minutes for 450 miles.

GERMANS ARE ACTIVE IN SMUGGLING ALIENS TO U. S.

Bremen, Germany.—Detectives in the port of Bremen have just discovered a secret "institute for stowaways," occupied chiefly in smuggling European emigrants into the United States. The ringleaders of the "institute" have been arrested. The enterprise, locally known as Stowaways, Inc., maintained its headquarters at a small, inconspicuous hotel in Bremerhaven.

The smugglers preyed mainly upon Italian emigrants, from whom they exacted pump fees for a trip and safe entry into the United States. In connection with their discovery the police caught thirteen Italian stowaways on a German steamer about to leave Bremerhaven for New York. All were taken into custody.

Hens Earn \$3 in Year; Egg Average Is 232

Kimberly, Wis.—An average of 232 eggs per hen for a year was the record set by a flock of forty-three white Leghorns owned by Peter Van Saubeek. During the year ending November 1 these hens laid 9,570 eggs. During the last ten years Mr. Van Saubeek has kept chickens as a hobby. The average earnings per chicken has been \$3 every year except one. In 1917 his flock of sixty-five hens produced \$3.05 apiece.

SWALLOWED CAMERA TAKES VIEW OF HUMAN STOMACH

Sing Sing Convict Is Used as Laboratory for the Latest Medical Experiment.

Oswego, N. Y.—Demonstration of a "gastro-camera," which takes pictures of the stomach from the inside, was made before 100 physicians and surgeons at Sing Sing prison with a convict as the laboratory.

The camera is the invention of Franz Gerard of Vienna. Dr. Lawrence (Crimin), a specialist of Oswego, was in charge of the demonstration. Alexander Volero, a prisoner serving a sentence of 20 years to life, swallowed the camera.

The apparatus used consists of a rubber tube, about 25 inches long and about five-eighths of an inch in diameter. About two inches from the end of the hollow tube, which is shoved down the throat, is a small cylinder-shaped camera, two inches long and about half an inch in diameter. Just above the camera a short section of the tube is perforated and through it at this point, enclosed in quartz glass, runs a fine wire. This wire, when the camera is operated, lights up brilliantly.

Just above the perforated part of the rubber tube is another camera of the same type and size as the bottom one. When the plunger is pressed the wire flares, a floodlight illuminates the stomach and the picture is snapped. There are eight films in each camera which, combined, would not be larger than a postage stamp. With the one "shot" 16 different sections of the stomach are photographed.

Girl Stowaways Are a Problem to Ship Lines

Cape May, N. J.—The hazardous and adventuresome experience of stowing away aboard a ship is now being sought by the flapper as a new thrill, according to E. W. Arculus, veteran steward and former instructor of stewards for the United States shipping board.

Arculus, who recently visited old cronies in the seafaring colony of the south Jersey coast, declared the romance of the sea is as keenly sought by young women as by members of the opposite sex—who have always considered the sea as a field of their own.

The steward said the number of young women who get a "kick" out of "hopping" aboard a trans-Atlantic vessel and stealing a ride to Europe is getting to be a serious factor with large companies. Arculus revealed drastic measures are being taken to watch gang planks at embarkation for fair stowaways. One company, he

said is considering a rule to have friends and relatives say farewell from the dock to prevent "free passengers" from boarding.

Air Mail Is Proved Safe for Valuables

Washington, D. C.—Post-Office department records show the air mail is comparatively as safe a medium for shipping valuable papers as other means of transportation.

"The loss of 1,657 marks of mail in the sinking of the Vestris alone constituted a greater loss than the air mail has experienced during the ten years of its existence," W. Irving Glover, second assistant postmaster-general, says in reviewing the records.

"Fire in a railroad car just outside New York recently destroyed more mail than has been lost during the entire operations of the air mail."

Records show that for the ten years of air mail's operation, 1,624,855 pounds of mail were carried with a loss of only 1,235 pounds. The percentage of air mail lost in transit is .0061.

The Post-Office department requires mail compartments of all planes to be lined with sheet metal to serve as a protection from such slight fires as might originate from defective wiring or similar local causes.

African Witch Doctor Worries French Regime

Brazzaville, French Equatorial Africa.—Karno, an eminent witch-doctor, is giving the French authorities a great deal of trouble.

Residing in the sparsely settled and inaccessible upper Sangha region, his modern ambition is to drive the white man out and make for himself a little kingdom.

A sick and weakly individual, Karno possesses remarkable skill in playing on the superstitions of the natives. He is a consummate actor, and when by his spells and antics he has worked his hearers up to the required pitch of exaltation he launches into a furious diatribe against the white race.

Disillusioned I always thought Jenkins was rather bright.

He made a radio set out of some hay wire and a few spark plugs. He could catch trout with some binder's twine, some remnant cheese and a hairpin.

By snuffing at an exhaust pipe he knew which cylinder was misfiring. I always thought he was rather clever.

But this morning he called in a repair man to change the ribbon on his typewriter.—Boston Globe.

"I light a Lucky and go light on the sweets

That's how I keep in good shape and always feel peppy."

Al Johnson
Al Johnson,
Famous comedian
and star of song.

Reach for a Lucky instead of a sweet.

Something sensible. "Better to light a Lucky whenever you crave fattening sweets." It brings to men the health and vigor that come with avoiding overweight. To women it offers a slender, fashionable figure.

20,679 physicians have stated that Lucky Strike is less irritating to the throat than other cigarettes. Very likely this is due to toasting which removes impurities. This same process, toasting, improves and develops the flavor of the world's finest tobaccos. This means that there is a flavor in Luckies which is a delightful alternative for the things that make you fat. That's why "It's Toasted" is your assurance that there's real health in Luckies—they're good for you!

Keep fit—reach for a Lucky instead of a fattening sweet. That's what many men have been doing for years. They know the evidence of prominent athletes whose favorite cigarette is Lucky Strike and who say Luckies steady their nerves and do not impair their physical condition.

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say—

"REACH FOR A LUCKY
INSTEAD OF A SWEET."

"It's toasted"

Woodstockers Engage in Art Industry on Barrow Street—New Kiln Proves Worth to Greenwich House Pottery.

By F. G. Clough.

Located in the rear of the Greenwich House on Barrow street, New York City, there is an industry with a romance of its own. This industry is known as The Greenwich House Pottery. It was started two years ago as an adjunct of the Cooperative Social Society; today the Pottery boasts of the finest electric kiln in existence. In the beginning this Pottery operated on a small scale for students, who were mostly children. Now the Pottery draws for a number of well-known sculptors and potters, a number of organizations, and for the students of the classes run by the Greenwich House.

Miss Maude Robinson, who is well-known at Woodstock, is in charge of the work being done at present at the Greenwich House Pottery. She is assisted in her classes by Victor Kado, Miss Mary Lewis and Miss Josephine Jewett. G. A. Raup, who is also a Woodstocker, has charge of the kiln.

The kiln is the latest model and is run by electricity. While there are others of the same system used in industry, there are but four in existence used for potteries. In brief, the new kiln is cleaner, well insulated, allowing it to be used inside of a building with no danger of fire. It is of a greater size, more efficient, requires no flue, and is regulated by an automatic heat cut-off. This particular kiln has been photographed to accompany an article prepared by Miss Maude Robinson for the new Encyclopedia Britannica.

Since October of last year, when this new kiln was installed, the Pottery has become a self-supporting industry. It has been in use constantly, with an old gas kiln called in for overflow work.

Individual potters and sculptors find it convenient to have their work done on Barrow street. The curio shops exhibited and sold at a modish uptown shop are bled here. A visit to the basement rooms of the Pottery is as interesting as a visit to an art gallery—there is the same fascination as one would find in watching an artist at work.

Eyes Filled With Dittos.

New Yorkers have greatly disappointed me. Coming from a small town, I expected to find the typical Gothamite a creature covered with all the car-marks of a cosmopolitan. I was certain that his sophistication would make him immune to any catastrophe. What I mean is that I expected my New Yorker full with disinterest in common things.

You will understand then what great shock awaited my eyes when I observed a street full of people craning their necks heavenward to get a glimpse of an ordinary airplane which soared over the city. Every time the buzz of a sky motor hits my ears my eyes are filled with astonishment to see the child-like interest on the part of pedestrians whose eyes are filled with dittos.

A summary of this condition would seem to indicate that the average New Yorker is quite childlike in his enthusiasms, that he is naive and alert to keep abreast with new things. Electrical airplane advertising is in its infancy; it needs an audience; geographical boundaries fade away before this phenomenon. After all, my disappointment somehow makes me like New Yorkers better.

Books and How.

At some time in the remote past a chap by the name of Pratt opened a bookshop at 161 Sixth avenue. He began his business by advertising old and new books and stationery. Pratt's business flourished. We have proof in his next sign: "Bibles, Poetry, Art, Music, Chess, Cook Books." That this sign was profitable and intriguing, and that Pratt made books as desirable as prohibition has made liquor seems certain by his next sign.

The next sign read: "Arithmetics, Grammars, Checkers, Chess, Bridge, etc., Real Estate, Handwriting, Prayer-Books, Bibles, Nurses State Board 'Questions', Artistic Anatomy, Drawing, the 'Kasidah', the 'Rubbish'."

Pratt's newest sign reads: "We have 1/2 a million books on all subjects—our store is 110 feet deep." We did not verify his count nor pace the depth of his store, but we will believe his signs.

Speaking of bookstores, the New Year in town is being celebrated by 20 per cent discount sales from the Battery to the Bronx. New books, as well as old, are being displayed with placards announcing the new prices. Even the swankish book shops along Fifth avenue have succumbed to this somewhat unethical procedure. One thing is certain: what with the book signs of the times, people are compelled to do more reading.

DRY BROOK.

Dry Brook, Jan. 24.—Carl and Earl Vredenburg of Spencertown visited their sister, Mrs. Ney Todd, Sunday.

Reuben Ackerly visited friends in Seagr last week.

Mrs. Elizabeth Fairbairn entertained ladies of the M. E. Church at a covered luncheon last Wednesday. Among those recovering from grip are Orrin L. Baker, who was critically ill; Mrs. Andrew Todd, Mr. and Mrs. Augustus Stewart and daughter, Magdalene, Barbara, little daughter of Mr. and Mrs. Charles Todd, Mr. and Mrs. Merrill, George and Mrs. H. B. Graham.

Marion Baker has the bumps. Mr. and Mrs. Grover Kittle were business callers in Margaretville Saturday.

Charles Todd was at William Ackery's Thursday collecting taxes. George Stewart made a business trip to Beaverkill this week. W. E. Avery received word Monday evening of the death of his son, Mary, who was making her home

with Cedric Kittle of Pine Hill. General Friday from the M. E. Church. Ed Castwell of Margaretville was a business caller in this place Monday.

Mr. and Mrs. Earl Goscoe of Pine Hill spent the week end with their parents.

William Edward, little son of Mr. and Mrs. Joe Avery, has been ill for the past few days.

Albert Rose, while driving his new Chevrolet car taking his daughter Thelma to school Friday morning, had the misfortune to hit the rail of the iron bridge at the foot of the hill near New Fairbairn. The car was damaged but fortunately no one was injured. The hill was a sheet of ice.

O. A. Todd, with a force of men and teams, started filling the large ice house at Furlough Lodge Wednesday.

Mrs. O. A. Todd gave a covered luncheon Thursday for the benefit of the church fair.

Mrs. Elizabeth Fairbairn was a guest of Mrs. Grover Kittle Tuesday. Miss R. C. Kelley lost a valuable cow last week.

ACCORD.

Accord, Jan. 24.—N. Y. O. & W. R. R. workmen are filling the ice house at Accord.

Cyrus Deput is still confined to the house by illness but is improving. Mrs. Percy Gazlay has been confined to her home by illness for a few days.

Mrs. George Coddington, who has been ill for several days, is improving.

Mr. Morris of Mountandale is substituting for Cyrus Deput at the O. & W. station.

Events Around The Empire State

Watertown, (AP)—A gold fish purchased by Charles L. Thompson of this city in February, 1909, died recently after attaining a length of seven inches. Death was attributed to old age.

Hempstead, (AP)—George Smith, Hempstead's veteran subpoena server, claims to be one of the busiest constables in the state. During 1928 he collected fees totalling \$2,024.95 for serving civil summonses and disposing warrants issued by Walter Jones, Justice of the Peace. Last year was the busiest of the 29 he has held office, he said.

Glens Falls, (AP)—The outbreak of influenza in this city was thought to have passed its peak when 1,200 persons were reported ill with the disease. More than 750 students were absent from the public schools on one day because of illness.

Three Mile Bay, (AP)—The death a few days ago of Lester C. Angell left Horace I. Henderson of Chaumont as the only Civil War veteran in the town of Lyme which had practically 100 per cent enlistment.

Watertown, (AP)—For more than a week recently this city was without a city judge. City Judge J. A. McConnell and Special City Judge E. W. Carroll both were ill. City court hearings were conducted by a justice of the peace outside the city limits.

Hall, (AP)—There must be something to the assertion that carrots are good for the complexion. A carload of carrots from this village recently was shipped to a muskrat farm on the Maryland coast. The carrots are fed to the rats to improve the quality of their fur.

Waterloo, (AP)—Four watchmen, four sets of gates and one automatic signal will be superseded by a unified

teacher signal system to be installed by the New York Central Railroad Company on the nine grade crossings in this village.

Geneva, (AP)—Robert College has a total enrollment this year of 214, the largest in the history of the school.

Chili, (AP)—With the price of raw fur the highest in many years, boys and men of this vicinity have been working overtime on their trap lines. Skunks and muskrats are reported plentiful while an occasional mink helps to swell the profits.

WEST SHOKAN.

West Shokan, Jan. 24.—The community dance to be given on Saturday night, January 26, at Colange Hall under the auspices of the West Shokan Social Club, bids fair to be an event of unusual prominence. The orchestra selected is one of the most prominent in Kingston. Misenbenders, which requires no further introduction. The program will include both the time honored square sets as well as the modern dances, including the ever popular Paul Jones. This is to be a community party and a cordial invitation is extended to all.

Wednesday morning presented a wintry appearance, this section being visited by a snow storm, about three inches having fallen during the night.

It is said that the electric line from Cold Brook will be strung from a new line of poles which will also carry underneath the telephone wires. The present line of poles were erected about fifteen years ago before the completion of the boulevard on the west side of the reservoir.

A good sized delegation from Shokan I. O. O. F. Lodge on Tuesday evening attended the installation ceremonies at Phoenixia Lodge, No. 154, which was performed in a most dignified and impressive manner by District Deputy Sidney A. Johnson and staff of Aretas Lodge, No. 172, of Kingston. Phoenixia Lodge, which only a few years ago had fallen into a rut and was scarcely functioning, is today one of the most prominent in the district, due largely to the untiring efforts of that prince of Odd Fellows, S. Barrell Schwarzwelder, of whom it is said he will be the next district deputy of the Ulster district.

The next meeting of the Ulster County Past Grands' Association will be held at Shokan I. O. O. F. Lodge at Olive Bridge on Saturday night, February 2. All past grands who are not members are urged to come

out and join up with this rapidly growing organization which is proving to be a great asset to the Odd Fellows in this vicinity. All Odd Fellows in this vicinity are cordially invited to attend the regular lodge meeting which will precede the session of the Past Grands' Association, after which they may participate in the evening's social hour and luncheon which will be observed.

The Ladies' Aid of the Baptist Church met on Wednesday for an all day quilting party, which was held at the home of Mrs. Edward Avery of Maple Dell Farm.

The many friends in the community of Mrs. Golden Van Benschoten of Hemlock Knoll Cottage at Shokan, are grieved to learn that on Sunday evening while on the way to visit a near neighbor, in company with her husband, she fell heavily and sustained a very severe fracture of the wrist.

Cornelia Davis commenced attending the Brothhead school on Tuesday in order to be a pupil of the efficient instructor, Mrs. E. C. Burgher, whose ability as a teacher is held in high regard by the residents of the community.

Lauren Hesley, progressive young truckman, has taken a contract to supply 200 cubic yards of stone to be used in a retaining wall at the Tongore bridge. The stone is being taken from the walls on Leroy Davis's farm. Julian Eckert and Ernest Constable are employed by Mr. Hesley in fulfilling the contract.

Charles Hesley was engaged on Monday and Tuesday in the sawing of a season's supply of firewood. He was assisted in the work by John Jordan and Morton Roe, who are nearby neighbors.

Michael Dwyer and Samuel Cassola have commenced cutting firewood on Mr. Hesley's extensive wood lands, located on the easterly slopes of South Mountain.

Mr. and Mrs. E. C. Burgher have moved into their new bungalow. The telephone was transferred on Tuesday by employees of the Telephone Company. It is expected that a community house warming will soon be in order as Mr. and Mrs. Burgher are noted for their social tendencies.

Mrs. William Burgher and daughter, Olive, are not feeling well.

Robert Bishop is engaged in an intensive trapping campaign in an endeavor to capture a wild mink.

Mr. and Mrs. Ira Burgher, of Kingston were visitors one day this week at the home of Mr. and Mrs. William Burgher at West Shokan Heights.

With the return of wintry weather conditions, local icemen are hoping they may be able to fill their houses during the week.

A number of local Masons attended Roundout Masonic lodge on Monday night.

Charles Hesley expects in the near future to erect an up-to-date blacksmith and carpenter shop.

The latest acquisition of the community is the old Phoenixia fire truck which was presented with the compliments of the Phoenixia fire company to one of the progressive young townsmen whom we understand will probably organize a company known as the Community Volunteers. Further information will be given as additional statistics become available. The possibilities of an organization of this kind would prove a great asset to this community. This idea was conceived several years ago by Mr. Winkler who was formerly a member of the Passaic, N. J. fire department and is one which seriously merits consideration.

Mariam Davis is feeling somewhat indisposed. However, she is spending her vacation from high school with intensive practice on her piano. It is said that the condition of Clarence Donahue is considerably improved. He is convalescing at the home of his brother Floyd in Kingston.

NEW PALTZ RESIDENTS ATTEND UNVEILING

The nineteenth anniversary of the founding of Le Lyceum, society of French women, by Mme. Polifeme of New Paltz and the unveiling of the statue of Jeanne d'Arc in Washington, a gift of the society, was celebrated last Friday. The date marked the fifth centenary of Jeanne d'Arc's great military victory, the deliverance of Orleans. New Paltz residents who attended the Washington celebration were Mrs. Lanetta E. DuBois and Miss Gertrude LeFevre. Mr. and Mrs. Louis J. DuBois of Brooklyn were also among the guests.

Mme. Polifeme, who resides in one of the stone dwellings constructed by some of Ulster county's first settlers, has for a long time labored to promote the feeling of friendship that prevails between this country and France. She was among the prominent speakers at the unveiling of the statue of Jeanne d'Arc at Washington.

Dinner's a Success If
The First Course Is Good

The first source of a meal writes success or failure across the dinner table, for it all depends on what comes first. Hot soup, clear and flavorsome—or perhaps a steaming dish, creamy and delicious with your favorite vegetable—what an appetizing approach to a fine home cooked dinner! Canapes, fascinating tid-bits, also make delicious appetizers with their toothsome spreads on mouthfuls of toast.

During the week of January 28, our home service bureau has arranged a demonstration of the preparation of soups and canapes to be given in all the home service classes. How to make a successful first course will feature this lesson. All women are invited to attend the classes held in their community. Exact date and hours may be obtained from your local office.

Music in the Air

Do You Know Your Music?

DURING the next music-educational broadcast, sponsored by the Radio Corporation of America and under the direction of Walter Damrosch, the horn and trumpet will be the featured instruments. The Overture to "The Flying Dutchman," by Wagner, an excerpt from the Andante of Symphony No. 5, by Beethoven, and the March from "Tannhauser" will comprise the program to be played by the National Orchestra.

The horn is especially prominent in the selection from "The Flying Dutchman," a melody expressing the mood of the ocean as well as the troubled life of the hero. The trumpet, which has a brilliant and penetrating voice, was originally used for military purposes. It plays the opening Fanfare in the March from Tannhauser.

Clip this article and listen in Friday morning (January 25th), at 11:30 A. M. E. S. T., over the WJZ network of the National Broadcasting Company, (10:30 C. S. T. and 9:30 A. M. M. S. T.); then test yourself by answering the following questions which Mr. Damrosch has prepared for high school and college students. The correct answers will be given here next week together with a new set of questions for the succeeding concert.

- 1-Q. From what early instrument is the modern orchestral horn derived?
- 2-Q. How many horns are there usually in the modern symphony orchestra?
- 3-Q. Who was the "Flying Dutchman"?
- 4-Q. Why is Wagner's opera "The Flying Dutchman" specially interesting to the student?
- 5-Q. What instrument gives out the stormy theme of the Flying Dutchman in the Overture to Wagner's opera?
- 6-Q. What instruments describe the tempestuous surging of the waves?
- 7-Q. What do the closing measures of the Overture symbolize?
- 8-Q. For what purpose was the trumpet originally used?
- 9-Q. How did Mr. Damrosch interpret the meaning of the passage for trumpets and drums in the Andante from Beethoven's Fifth Symphony?
- 10-Q. What instruments play the fanfares at the beginning of the March from "Tannhauser"?
- 11-Q. What scene does the March portray?

Answers to the questions on the last concert (January 18th) for junior high school students follow:

- 1-Q. What does the word "trombone" mean?
- 2-Q. How many trombones are there usually in the modern symphony orchestra?
- 3-Q. What human qualities and emotions can the trombone best express?
- 4-Q. What do the trombones and trumpets represent in the Prelude to "Lohengrin"?
- 5-Q. What do the trombones express in Mendelssohn's "Wedding March"?
- 6-Q. What is a bass tuba?
- 7-Q. How many bass tubas are there usually in the modern symphony orchestra?
- 8-Q. What were the Valkyries?
- 9-Q. What was their principal duty?
- 10-Q. What do the trombones and bass tuba describe in the "Ride of the Valkyries"?

COLDS MAY DEVELOP
INTO FLU

Coughs from Flu May Weaken Your System
and Lead to Serious Trouble

You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and breaks the inflamed membranes and inhibits germ growth. Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfaction in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. Creomulsion may help you avoid flu, but is not sold as a flu remedy. If you have fever, or think you may have the flu, see your doctor immediately. (Adv.)

Local Man Relates How This Trouble Affected
Entire Health, Nu-Erb Was First
Medicine To Help Him.

Dr. French's Nu-Erb, the great herbal medicine which was recently introduced in Kingston by the Nu-Erb man at McBride's Drug Store is growing daily in popularity because of its certain action on the stomach, kidneys, liver and bowels. Every day some person is telling how it corrects digestive disorders, strengthens weak kidneys, rouses a lazy liver, relieves constipation, quiets the nerves or drives rheumatic aches and pains from the system in many cases after everything else had failed. For example here is the enthusiastic story of Mr. William Post, R.D. No. 1, Kingston, N. Y., who is a well known employee of the Cornell Steamboat Co.

"I had got such terrible pains through my stomach after every meal that they almost doubled me up. This I know was caused by gas formations and fermentation of my food and I also suffered from bloating and this gas pressed up against my heart so that at times it almost took my breath away. I was subject to staggering dizzy spells and at these times everything seemed to go black before my eyes. I slept poorly at night and awakened each morning feeling tired and worn out. I also had a very poor appetite and I was a chronic victim of constipation. "I tried many of the different advertised remedies and plenty of other medicine that I heard about, but nothing ever helped me to any extent until I started using Nu-Erb. That is only about one month ago, but in that time my stomach has improved so that I am no longer troubled with gas formations, indigestion or those terrible pains. The dizzy spells and floating spots be-

THE NU-ERB MAN.

fore my eyes have entirely disappeared. Not only that, but this medicine has quieted my nerves, given me a splendid appetite and I sleep soundly all night long. My bowels are more regular as a result of having used Nu-Erb and I am stronger and more energetic in every way. My advice to anyone who suffers from these troubles is to give Nu-Erb a chance to help them. McBride Drug Store, 312 Wall St., is headquarters in Kingston for Nu-Erb. Go see the Nu-Erb man now making his headquarters there and let him explain to you the merits of this remarkable medicine.

ROSENDALE.

Rosendale, Jan. 24.—Few granges in the county show a better average attendance for the year than the members of Rosendale Grange, No. 1501, P. of H. as many live some miles from the village. New members will be initiated on January 28th, and another class coming right along. This season for the first time the members held a fancy dress ball. Some of the costumes worn were sent up from a New York costumer and were elegant, and then there were some grotesque and comical ones. It was a very successful affair.

On January 14 was Town History Night. Charles T. Craig gave an interesting talk on the early history of Rosendale. Its origin and growth from endless forests and log cabins to a prosperous village. Having been cement tester for the Hiram Snyder cement plant for a number of years he became thoroughly familiar with the manufacture of hydraulic cement and its worth, which now is being revived. Mr. Craig was heartily applauded for his interesting address. Mrs. C. I. Lefever, Jr., then gave a reading from the history of Ulster county by Judge A. T. Clearwater, the well-known jurist and historian, and because of his familiarity with the subject, especially the very timely article from his pen, was exceptionally interesting, concerning the early development of industrial conditions in the once prosperous town of Rosendale, which elicited much applause. Mrs. C. V. Hasbrouck when called upon said the subject had been covered fully, there was not much left for her to say, so she related incidents pertaining to civics, health, religion and education, including every phase of a new ball for the Grange, the present one being too small, she concluded her talk with a little story. Refreshments were served by Mr. and Mrs. D. J. Christians, Mr. and Mrs. Walter Keator, Charles T. Craig, Mrs. Iona F. Craig, Miss Mary Christians, Miss Jennie Craig and Walter Ortmann. Sandwiches, delicious cake and coffee and a social dance ended a delightful community gathering. Next meeting will be held on Monday, January 28. Conferring of first and second degrees. It is earnestly requested that all members attend.

Services will be held in All Saints' Episcopal Church on Sunday next, January 27, at 8 a. m. Holy Communion. 2 p. m. service with sermon by the Rev. Walter J. Gratton. Service at St. Thomas's Church, Rilton, January 27 at 10:45 a. m. with Holy Communion and sermon, by the Rev. Walter J. Gratton.

Ulster Legion Committee.
 The Ulster county committee of the American Legion Auxiliary will hold a meeting at the rooms of George D. Cook Post, No. 111, Ellettsville, Saturday, February 2 at 2:30 o'clock.

Holy Cross G. F. S. Banquet Enjoyed

The Girls' Friendly Society of Holy Cross Church held a mother and daughter banquet at the parish house on Tuesday evening. The hall was attractively decorated for the occasion with laurel and evergreens by Robert Allen and Charles J. Coffman, who with the Rev. Raymond S. Hornby, curate of Holy Cross Church, were guests of the society.

The girls sang six G. F. S. songs before the supper was served. Much credit is due Mrs. Anna Schoonmaker, Mrs. John Atkins, Mrs. Seymour and Mrs. Daniel Becker for the charming table decorations and the most delectable meal, which brought a rousing cheer from the girls for the valuable help of these experienced ladies.

After the supper Miss Best, head of the training school for nurses at the City of Kingston Hospital, gave a very interesting talk in health, using as her topic "How To Be Beautiful".

This was followed by a talk from Father Hornby who spoke of the aim and purpose of the G. F. S. Father Hornby is an ardent supporter of the G. F. S. and deserves much credit for his interest and work in the welfare of this society.

The evening closed with a duet by Miss June Adams and Miss Barbara Boss, and instrumental selections by Mrs. Robert McLaughlin. The attendance was fine and all enjoyed a very happy evening. At the close of the meeting it was announced that Charles J. Coffman had consented to take charge of the G. F. S. basketball team, which was very much appreciated by the girls.

STONE RIDGE

Stone Ridge, Jan. 24.—At the Methodist Church Sunday morning the Rev. George Cosley of the Methodist Church of Kerhonkson will preach and will give the communion. Every member and all friends of the church are urged to be present for this service.

At the union service Sunday evening at the Reformed Church the Rev. Hugh will use as his subject "A Spiritual Struggle".

The Builders' Class will meet Saturday afternoon at the home of Mrs. Irving Schoonmaker.

The Ladies' Aid Society of the M. E. Church will meet Wednesday, January 24. The business meeting, including election of officers, will be at 3:30 p. m. At 6 o'clock supper will be served for the members of the society and their families.

At the Men's Community Club on Thursday evening the following officers for the ensuing year were installed: J. E. Briggs, president; Percy Schoonmaker, vice president; Herlick Schoonmaker, secretary; Howard Van Winkle, treasurer. Several names were proposed for membership, to be acted upon at the February meeting. There will be a meeting of the fire department at the garage of Luther Garrison on Thursday evening at 7:30. All the men are urged to be present.

On Monday evening at 7:30 o'clock the losing side of the C. E. of the Reformed Church will treat the winning side. Everyone who is a member of the C. E. is asked to be present to enjoy the treat and the evening of entertainment.

The choir of the Reformed Church will meet on Friday evening at the parsonage for practice.

The Rev. C. Van Tol has chosen as his theme for Sunday morning at 10:30 o'clock "Opportunity." Everyone is invited to worship with the congregation at that time. The Sunday school will convene at 11:45 o'clock with L. D. Sahler in charge. C. E. at 7 o'clock with Mrs. Oscar Hornbeck as leader. The topic will be, "How can we serve the world through our church?"

Education Sunday will be observed in the Reformed Church on February 3. Dr. William Dayton Brown, who is secretary of the board of education, will speak at the service. Members are urged to be present. The special offering of the day will be for the benefit of the denominational college.

FRIDAY NIGHT SERVICE AT UPPER ROOM MISSION.

The regular Friday evening service will be held at the Upper Room Mission, 562 Broadway, in the Netburn building, near the West Shore at 7:30. The Rev. C. V. W. Bedford will have charge of the meeting. It is expected that music from the fine set of sweet-toned Deagan chimes which have recently been installed in the mission will constitute a part of the service. An electric sign is being made and will soon be placed in position. This sign will enable anyone to readily locate the Mission rooms. Everyone welcome to this Gospel service.

Flashes of Life Sketched in Brief

(By The Associated Press.)

New York—Because the normal life span is increasing, and as it is becoming a greater problem, it is found by the board of managers of the New York Association for Improving the Condition of the Poor, probably between 10 and 20 percent of the population of the country over 65 are wholly or partly dependent. Since 1850 the ratio of people over 65 has increased 61 per cent.

A Silver Medal Cow

A record of 7,779 pounds of milk and 458 pounds of butterfat in 305 days of official testing won for Owlrest's Select 661096, pictured above, one of the herd of purebred Jerseys maintained at the Experiment Station at Geneva the silver medal of the American Jersey Cattle Club, according to a recent announcement by club officials. She averaged 5.9 per cent fat during the test, and made her record on two milkings a day, beginning at the age of two years and eight months.

In her best month Select produced 61.05 pounds of fat, and she qualified in the 50-pound list for four successive months. Her sire is Owlrest 211961, senior sire of the station herd, and her dam is the Register of Merit cow Fair Jacoba Fern 574666.

The methods used in feeding and handling the Experiment Station herd are readily applicable on any practical dairy farm, says J. C. Henning, dairy specialist at the station. "The cows have been fed a

sufficient quantity of a well-balanced ration for economical production but they have never been crowded for high records.

The herd has been developed from two good foundation cows, and the careful choice of offspring from high-producing cows has been practiced to improve this herd. As a result the average production of 22 cows which finished test in 1928 was 7,364.2 pounds of milk and 424.65 pounds of butterfat, representing an increase of 324 pounds over the 22 pounds of butterfat over the average yield of 23 cows which finished test in 1927.

"The senior herd sire, Owlrest 211961, has six daughters, including Select, which have finished their first 305-day test. These six daughters gave an average of 7,373.3 pounds of butterfat as compared with 345.4 pounds of butterfat for the better records of their dams. These representatives of the younger generation, therefore have surpassed their elders on an average of 25.38 pounds of butterfat for their first test."

one of the finest and peopliest they
have held in some time.The meal was one of the best that
the club has enjoyed in some time
and was prepared by the Misses
Davenport and served by Mrs. James
Scott and Mrs. Lester Finley. At
the request of President Fred Van
Deusen the ladies were brought be-
fore the men by Ernest LeFevre and
they were given a wonderful ovation.
When Lester Finley introduced the
Rev. G. L. Withers, pastor of
Trinity M. E. Church, as a new mem-
ber the fellows certainly did give him
a royal welcome into the club. John
C. Porter introduced Edwin Longacre
as a new member and he, too, was
given a rousing welcome. Four
guests were also introduced in true
Y's Men style.The club regretted to learn of the
illness of their pianist, Daniel
Bittner, and in his absence Walter
Workman very generously volun-
teered to play in his stead which
was greatly appreciated by the men
and he was given a vote of thanks
for Walter certainly can tickle the
ivories."Pop" Hinds' description of the
basketball game at Yonkers last
Thursday when the Y's Men emerged
victors was very realistic and the
team was greeted with much ap-
plause.The fellows also rejoiced in the
victory of the Kingston High School
basketball team over Poughkeepsie
last week under the able leadership
of Coach Kias and he was given a
rousing hand. Y's Men Kias
acknowledged the tribute to his team
in a very graceful manner.The meeting was then turned over
to the evening's entertainment com-
mittee consisting of Dr. Julius I.
Gifford, Clair Sheaffer and Daniel
Bittner and Dr. Gifford acting as
chairman in his own gracious man-
ner introduced the speaker of the
evening, the Rev. Clarence E. Brown,
pastor of the First Baptist Church of
Catskill, N. Y.The address delivered by Rev.
Mr. Brown was very eloquent and
one of the best the club has had the
pleasure of hearing in some time.
He took as his subject "Minding
Your Own Business." From the
very start he had the men with him
and was listened to with close at-
tention. That Rev. Mr. Brown made
a hit with the men was evidenced by
the tremendous burst of applause
that greeted him at the end of his
splendid speech.He was given a very cordial and
heartfelt invitation to return again.
The entertainment committee for
next week will be James Scott, J. C.
Fraser and Ralph Harper. The
meal next week will again be pre-
pared by the Misses Davenport.
word to the Y's should be sufficient
and no doubt a 100 per cent attend-
ance will be registered.

When the teacher gets cross, and her blue
eyes get black,
And the pencil comes down on the desk

We children all sit up straight in a line,
As if we had rulers instead of a spine,
And it's weary to cough, and it ain't safe to

When the teacher gets good, her smile is

Sagebrush

By M. LOUIS RAYBOLD

(Copyright)

ELLEN MAYNARD stood in the
doorway of the school of which
she was the new teacher and regard-
ed the scene before her with homelick
eyes.Except for the immediate school
yard, which was a single cottonwood
shrubbed, there was nothing really
notable in sight. A white ribbon of
road that stretched for miles where
it did not dip abruptly into cañons or
hollows. A black and level line that
was the railroad which had brought
her here several days ago. For the
rest, a rolling plain, covered with
sagebrush to the horizon.She had descended from the Calson
Pacific train wondering fearfully if
some mistake had not been made in
depositing her at this meager collec-
tion of buildings. Presently, however,
she discovered that the conductor had
made no mistake. This was Rowdier
and her landlady, Mrs. Julie Westcott,
had her room all ready for her. The
most interesting discovery that she
made was that Mrs. Westcott had a
son who, so far as bright shirt, fringed
chaps and huge sombrero were con-
cerned, was the cowboy of her dreams.
And his name was Tom.Today he was bringing her lunch
to her; yet so blurred were her eyes
with tears that she did not see him
tipping down the road until he had
almost reached the school.He lingered a moment to talk,
fingering his bride and looking out
across the sage."You—you are fond of this coun-
try, I suppose?" said Ellen suddenly,
with a sweeping gesture of her slender
hand."You bet!" said Tom simply. "Born
and raised on the range, same as Star-
face here!" He patted his mare's
silly nose."Well," remarked Ellen, "I'm that
homesick I hope I never see another
piece of sage in my life. I surely do
hate it!"Tom looked at her quickly. "I'm
sorry," he said. "I suppose it does
strike strangers that way. But with me,
when I was East, I got so I just
ached for a whiff of it."Ellen threw him a glance of sur-
prise. "East? I didn't know you had
ever been East.""Sure," said Tom easily. "I went
to the state college in Minnesota—
why, what is the matter?" For Ellen
was laughing."That's West to us in the really
truly East!" she explained.Tom laughed with her. "Well, any-
how," he persisted, "I've been in the
really truly West! To Leland Stan-
ford for a year. And to Vancouver.
But even out there I was downright
homesick for these plains, just as I
guess you're homesick for sidewalks
and skyscrapers.""I have no relatives left," said
Ellen wistfully. "Near relatives. So,
as you say, it must be for roads and
buildings!"With the passing of the weeks, El-
len schooled herself to a certain resig-
nation. Shortly after Tom's return,
he taught her how to ride, and after
school they made many little excu-
sions about the country."How far would you have to ride,"
she asked him curiously one day, "be-
fore you would see anything besides
this same identical scene?"Tom thought for a moment. "Sixty
miles due south you would sight the
Big Horns," he said finally. "Eighty
miles due north there is a little sec-
tion of Bad Lands.""Oh!" said Ellen in a small voice.
"So far as that!"Snow, falling early in this country,
confined Ellen more closely. There
were days when there was no school
because of the storms, and she would
find herself wandering restlessly about
Mrs. Westcott's not very large living
room.Little by little it was being borne
in upon her that Tom was coming to
feel something more than mere
friendliness toward her and she was
puzzled how to make her inevitable
refusal as gentle as possible. She was
relieved as the days passed and he
gave no definite sign that could not
be ignored.Never was spring so grateful to her
as that one at Rowdier. Soft winds
bloomed over the range. The snow
melted and shrank to the protected
side of house or corral. Disappeared
altogether. Warm days succeeded
days that merely promised warmth.
Blue skies reigned for weeks at a
time.Come May and June and the last
days of school. Ellen's trunk stood
half packed in her bedroom, nearly
ready for the drayman.Not until she actually stood on the
platform waiting for the train did
Tom tell her in simple, homely words
that he loved her. "I've known it for
a long time," he said, "but I didn't say
anything for fear it would bother you.
I knew there was no use in hoping
you'd care yourself."Ellen looked straight into his splen-
did eyes. "I am sorry," she faltered.
And then the train came and she was
gone.Two weeks later a letter came for
him."Dear Tom:
"I have found out a funny thing.
Being homesick for the East is bad,
but being homesick for the West is
worse. Do you still feel the same?
If you do, I'll come to you by the
next train.""Give my love to the sagebrush."

Financial and Commercial

New York, Jan. 24 (AP).—The stock market closed today in the face of the Federal Reserve bank's report to be issued after the close of the session. A long list of important issues sold off 2 to 7 points, although vigorous pool activity in a handful of specialties retarded the list in the early afternoon.

Trading has been heavy this week but the general list has made but moderate headway. Predictions of the expected gain in brokerage loans vary, ranging from \$5,000,000 to as high as \$20,000,000. In any case, a new high record is expected as last week's total of \$15,544,000 was approximately \$10,000,000 from the high record of December 5.

While traders were inclined to disregard further flow of credit into the market earlier in the week, a firmer tone in money today and expressions of opinion by bankers that the call loan rate again will rise sharply over the month end, once more focused attention on the loan total.

Call money held at 6 per cent, but the tone was firmer, and 50-90 day time was firmer at 7 1/2 per cent. The fact that the Bank of England made no change in its discount rate and showed an improved ratio was regarded as further deferring an increase in the New York discount rate.

There was little in the day's news to influence sentiment. Announcement of formation of a \$100,000,000 company by the Van Sweringen interests to hold railway securities was not reflected in the rail stocks.

National Cash Register was a strong feature, soaring 9 points to a new record price at 134 in heavy buying. Nash Motors, Gillette Safety Razor, and International Harvester mounted about 5 points each.

Early in the session Matheson Aircraft jumped 14 points, and Canadian Pacific 5 points. General Electric led 4 points then fell back more than 8.

Further selling of U. S. Steel, which lost about 2 points, was an unsettling factor. Metals generally were liquidated. Kennecott, St. Joseph Lead, and International Nickel lost 3 to 5 points. Wright Aero, dropped 7, International Telephone, 6, and DuPont (New), Montgomery Ward, Radio, National Biscuit, Air Reduction, Allis Chalmers and Borgs were among issues losing 3 to 4 points.

Live Stock Notes

Experiments show that there is nothing gained by grinding corn for pigs.

Rye furnishes a good pasture for hogs during the fall, winter and early spring months.

Broad sows that have rare pasture during the winter will farrow stronger and more thrifty pigs.

When hogs are turned into the corn field to harvest the crop, temporary fencing should be used to confine them to a part of the field rather than giving them the run of a large field.

Suckling calves intended for baby beef will begin eating grain when they are four or five weeks old. Grain can be fed most conveniently in self-feeders placed inside a small pen or creep.

Pigs should have all the corn and tankage and oilmeal they will eat if you expect them to make satisfactory gains.

Take equal parts of oilmeal and tankage, mix and then feed one part of this mixture to nine parts of corn or corn and oats.

It has been decided an explosion which ripped part of the front from a western post office was an accident. It has therefore been marked Opened by Mistake.

About the hollowest sensation is feeling a tremendous burst of sympathy for some unfortunate and finding that he is completely unaware of needing it.

When the prince of Wales eventually comes to the throne it will be as David I. Then he can turn to the Old Testament and learn a lot about the king business.

The kitchen maid in Berlin, who posed as a princess and got two years in prison, should have remained as queen of the kitchen and made money correspondingly.

Of course, after a Philadelphia cop has saluted away about so much coin it doesn't make a great deal of difference to him whether he loses his job or keeps it.

Outlaws are people who commit more depredations than they did before they were outlaws. One does hope that war won't act like that when it is outlawed.

A newspaper feature announces that "women are playing an important part in the decorative field." If they weren't the cosmetic manufacturers would starve to death.

One day King Boris of Bulgaria is granted a 50 per cent increase in salary and the next it is announced that he will marry. Even on thrones two cannot live as cheaply as one.

"This encyclopedia," persisted the book agent, "will tell you absolutely anything you wish to know." "Yeah!" remarked the indignant prospect. "What ever became of Charlie Rem?"

It may be that flying is safe for 90 per cent of those who try it, but if it were safe for only 90 per cent of those who travel on railroads what a calamity that we would have every year.

A rehearsal for the minstrel show to be presented by Joyce-Schrick Post, Veterans of Foreign Wars, on Monday and Tuesday, February 11 and 12, will be held tonight at the "Dugout" on East Chestnut street.

Harry Malsenholder, director, is anxious that all be ready to start practice at 7:30. He also extends, for Joyce-Schrick Post, an invitation to all who like to play in minstrel shows to be at tonight's rehearsal.

Local Death Record

Mrs. Jeanie O. Shultis died at her home in Malden on Tuesday, aged 41 years. Apoplexy caused death. Funeral Friday at 2:30 p. m. at N. A. Lasher's funeral chapel at Saugerties. Interment in Mountain View cemetery. Survivors: One daughter, Miss Anna Shultis; two sons, James Shultis and John Shultis; one sister, Mrs. Anna Whitaker, and one brother, William Moon, survive.

Margaret, widow of Frank M. Nestell, died in this city today. Funeral Monday at 2:30 p. m. from her late home, 72 Brewster street. Interment in the family plot in Wiltwyck cemetery. Friends who wish to view the remains may do so Sunday from 2 to 5 and 7 to 9 p. m.

Mrs. Nestell, who was a life-long resident of Kingston, is survived by one daughter, Clara, wife of Joseph E. Hendricks, and three sons, Irving, George and Walter Nestell.

Mrs. Sadie C. LeRoy, widow of William G. LeRoy, died at the home of her son, Harry G. LeRoy, 165 Highland avenue, today after a short illness. Besides her son with whom she lived, Mrs. LeRoy is also survived by another son, George B., and a daughter, Mrs. Horace J. Haines, of Fort Lee, N. J.; one sister, Mrs. Magdalene Van Derburgh, of Plattsburgh. Funeral from the home of Harry G. LeRoy, Saturday, at 2 p. m. Interment in Wiltwyck rural cemetery.

Mrs. Ten Eyck N. Myer, sister of Wesley L. Snyder of this city, died Tuesday afternoon at her home in Mt. Marion, aged 71 years. Other survivors are one daughter, Mrs. William Genthner of Saugerties, and two sons, Warren Myer and William Myer of Mt. Marion, and her brothers, George B. Snyder and Edwin C. Snyder of Saugerties and Charles A. Snyder of Hurley. Funeral Friday at 2 p. m. from the late home, with interment in Mt. Marion cemetery.

Mrs. Abram Freiligh of Blue Mountain died at her home there early Wednesday morning, January 16, aged 68 years after a protracted illness. Mrs. Freiligh's husband died a week previous to her demise. Survivors are one son, Harry Freiligh, two sisters, Mrs. Mary Harris and Miss Ella Shear, of Joliet, Ill.; Albert R. Shear of Cairo, Irving Shear, of Katsbaan, and Clarence Shear, of Katsbaan. Funeral services Saturday at 2 p. m. from the Blue Mountain church. Interment in Blue Mountain cemetery.

The funeral of Mrs. Robert Walker was held in the Port Ewen Methodist Church Wednesday afternoon, and was largely attended. Services were conducted by the Rev. Frederick G. Baker, the pastor. Mrs. Walker was a faithful member of the Methodist Church and the Ladies' Aid. She had many friends whom she attracted by her genial manner. Mrs. Walker, a patient sufferer throughout her long illness, leaves to mourn her loss a husband and two daughters, Mrs. Edward Maroney of New York city, and Miss Jessie Walker, R. N. of Port Ewen, also two grandsons and two granddaughters. The floral offerings were profuse and beautiful. The bearers were Ira Jordan, Lewis Schryver, and Abraham H. Schryver. Interment was in the family plot in the Riverside cemetery, Port Ewen.

Ralph R. Harderburgh of Hoffman street died in this city Wednesday evening after a long illness. He is survived by his daughter, Mrs. A. Wilkins, of Mt. Vernon, N. Y. Funeral services Saturday afternoon at 2 o'clock from funeral parlors of E. A. Kelly, 111 West Chester street. Interment private. Mr. Harderburgh was at one time employed by the Cornell Steamboat Company in the office as a bookkeeper. After leaving the employ of the towing office he went to New York city where for over fifteen years he was employed in the office of the Title Guarantee and Trust Company. Mr. Harderburgh was noted for his exceptional fine penmanship, and much of his work with the New York company was where fine penmanship was required. He was the last surviving member of the family of the late Charles and Elizabeth Harderburgh of this city. His mother was a sister of the late Major Thomas Cornell of Kingston. During the World War the government awarded him two medals for his work with a pen in connection with War Saving stamps.

Whitfield, Jan. 24.—The funeral of Simon P. Hornbeck, who died at his home here late Friday afternoon, January 18, aged 84 years, was held from his late home on Tuesday, January 22, at 10 a. m. Services were conducted by the Rev. George Goslink. Interment was in the family plot in Whitfield cemetery. Mr. Hornbeck, who had been ill for a short time, is survived by his wife and three sons, DeWitt of Schenectady, Alton and Ernest at home; one granddaughter, Beverly Hornbeck, at Schenectady; one brother, Isaac, of Whitfield; three sisters, Mrs. Matthew Sahler of Pataunkunk, Mrs. Jane Christiana of Napanoch and Mrs. Esther Osterhout of Kingston, and a number of nieces, nephews and cousins. Many friends will also miss Mr. Hornbeck, who was a member of the Rochester Reformed Church, which he attended regularly until health failed him during the past year; the I. O. O. F. Lodge and Knights of Pythias. Floral pieces at the funeral bespoke the high esteem in which the deceased was held by his many friends.

Vets' Minstrel Rehearsal. A rehearsal for the minstrel show to be presented by Joyce-Schrick Post, Veterans of Foreign Wars, on Monday and Tuesday, February 11 and 12, will be held tonight at the "Dugout" on East Chestnut street.

Harry Malsenholder, director, is anxious that all be ready to start practice at 7:30. He also extends, for Joyce-Schrick Post, an invitation to all who like to play in minstrel shows to be at tonight's rehearsal.

Society Notes

Announcement. Mr. and Mrs. George Plankhaber announce the engagement of their daughter, Marguerite Plankhaber, of Washington, D. C., to Louis Pass of Virginia.

Celebration Wedding. New Paltz, Jan. 24.—Last Thursday evening a party was held at the home of Louis Pass to celebrate his wedding to Miss Mary Robinson, which recently occurred in Maryland. Among the guests were Mr. and Mrs. Plankhaber, Mr. and Mrs. Edward Rose, Miss Gladys Sheely, Miss Elizabeth Polhemus, Herbert LeFevre and many others from Kingston, Newburgh and Poughkeepsie. A bountiful supper was followed by an evening of dancing. Music was furnished by Joe Bell's Melody Boys.

Schoonmaker-Maus. A very quiet wedding was solemnized on Wednesday, January 23, at 11 o'clock at St. Joseph's rectory, when Edward L. Schoonmaker of 15 Clinton avenue and Mrs. Molly Maus of 613 Broadway were united in marriage by the Rev. Father Cusack.

They were attended by Miss Julia Schoonmaker and John T. Schoonmaker, brother and sister of the bride. After the ceremony the bride and groom went to the home of the groom's aunt, Mrs. John Carpenter, on Albany avenue, where a wedding dinner was served to the immediate members of both families. Mr. and Mrs. Schoonmaker will reside at 46 Cedar street, where a newly furnished home awaits them. Both the bride and groom are well known and have a host of friends who wish them a happy married life.

A Krippelbush Party. On Thursday evening, January 17, the Ladies' Aid and families of Krippelbush gave their president, Mrs. Cyrus Vandemark, a party at her home there in honor of her birthday. At that time Mrs. Vandemark proved herself to be not only a capable president but also a delightful hostess. A very pleasant evening was spent in the playing of various games and by singing. At 11 o'clock a delicious luncheon was served consisting of sandwiches, cake, salad, pickles, olives and coffee. Shortly after midnight the guests departed for their various homes.

Those present were Mr. and Mrs. Leroy Osterhout, Mr. and Mrs. Kenneth Osterhout, Cyrus Vandemark, Alvin Osterhout, Mr. and Mrs. John R. Smith, Mrs. Seba Grunstra, Mrs. Daisy Lyons, Ethel, Albert, Frances and Clyde Lyons, Mr. and Mrs. W. S. Osterhout, Mrs. Minnie Smith and daughter, Muriel, Miss Anna Lounsbury, Miss Melvina Van Aken and George Van Aken. Quite a number of the members were unable to attend because of illness.

A Surprise Shower. Saturday evening a surprise shower was given at the home of Mr. and Mrs. Norman J. Cole of 47 Abell street in honor of Miss Frances C. Sutherland of Catskill and Landon B. Cole of Kingston. A number of beautiful and useful gifts were received. Very delicious refreshments were served by Mrs. Cole. Guests were present from Newburgh, Maybrook, Catskill, Pataunkunk, Wittenberg, Stone Ridge, Napanoch, West Hurley and Kingston. Those present were Miss Frances Sutherland, Mr. and Mrs. Henry Sutherland, Mr. and Mrs. Simon Sutherland, Mr. and Mrs. Howard Martin, Mrs. Alice Martin, Mr. and Mrs. Edgar McConnell, Mr. and Mrs. Virgil Bulley and daughter, Elsie, William Bulley, Mrs. Alice Bush, Mrs. Emerson Lane, Grant and Raymond Lane, the Misses Dallas and Beatrice Lane, Mr. and Mrs. Bert Miller and family, Mrs. Faber and family, Mr. and Mrs. Charles Cole, Mr. and Mrs. Norman Cole and family, Miss Flora Smith, Herbert Sutherland, Mr. and Mrs. Paul St. Ours and Fred Cole and daughter, Marion.

A Surprise Party. On Friday evening, January 11, the home of Miss Kathleen Connor of Lyonsville was the scene of a pleasant surprise party when about forty of her friends assembled there. The evening was spent playing various games, music on the piano and singing were also appreciated and a

thoroughly enjoyable time was had by all. At midnight a beautiful repast was served consisting of cake, sandwiches, cheese, olives, pickles, coffee and candy. In the few hours of the morning the many guests departed vowing Miss Kathleen a royal hostess. Those present were the Misses Sarah Vandemark, Ruby Miller, Evelyn Davis, Janet Christiana, Florence Sloan, Jennie Greenberg, Florence Osterhout, Marie Van Wagoner, Gladys Vandemark, Marie Smith, Ethel Lyons, Gladys Schoonmaker, Mollie Van Aken, Doris Miller, Anna and Florence Lounsbury and Frieda Sahler, Mrs. Eva Connor and Mrs. Harvey Connor, Luther Osterhout, Oscar Van Wagoner, Elmer Osterhout, Byron Vandemark, Roy Hornbeck, Stanley and Earl Christiana, Joe Greenberg, Lewis Lounsbury, Archie Van Aken, Vernon Davis, Oral Dietz, James Roca, Pyrrhic and Fred Rele, Robert Kelder, Chris Lamphere, Dan and Joe Burgher, Morton DePuy, Aaron Bell, Robert Roca, Robert East and Nathan Trowbridge.

News of Interest to Members of Fraternal Societies. Court Santa Maria, Catholic Daughters of America, will meet this evening at the Knights of Columbus Hall. The meeting will start promptly at 8 o'clock. There will be installation of officers.

All members of Eoepus Council, No. 42, Sons and Daughters of Liberty, who desire to visit Integrity Council at Newburgh on Friday evening are requested to meet at Spinneweb's garage in Port Ewen that evening at 6:45 o'clock.

The regular meeting of Clinton Chapter, No. 445, O. E. S. will be held at Masonic Hall, Wall street, on Friday evening, January 25. After the regular business session a reception will be given in honor of the new matron and patron of the chapter who were recently installed. A very delightful program has been arranged by the associate matron. Refreshments will be served. All Stars and Master Masons are cordially invited.

Life's Real Glory

To be a strong head in the dark to another in the time of need, to be a ray of strength to a human soul in a time of weakness, is to know the glory of life.—Hugh Black.

Prisoner Had His Feet Frozen

George Deyo, who had been sentenced to the Ulster county jail for a term of sixty days on a charge of vagrancy, was found to have both feet so badly frozen that it was decided best to have him removed to the City of Kingston Hospital for treatment. He was removed to the hospital in the city ambulance on Wednesday. Deyo was sentenced from New Paltz.

An Old Myth Dies

Childhood's beliefs die hard, and yet the story of that brave little Hollander who held his first overnight in a crack in the dyke and saved his village seems to call for sympathetic interest. For the recent foundations of the Low Countries, as first one storm and then another assaulted the modern dykes, are on such a vast scale that the idea of using any child-like feat as a flood-preventive measure simply cannot be entertained. But it may be that it worked once, says the Baltimore Sun. In that case, however, it follows that they didn't have such terrific storms in the old days as now occur, and any old-timeer will testify that this is impossible.

The desire of aviators to break old records and establish new ones often brings forth most interesting efforts. Very often, too, the results seem to have no real relation to practical life, nor even practical flying. Perhaps the finest example is provided by the pilot, who, on encountering a gale, nosed into it, throttled his engine until its "pull" exactly equaled the pressure of the wind and so kept his plane stationary in the air for an hour. "A record," it is said, "for motionless flying." This seems very much akin to the political procedure of amending a progressive motion with a retrogressive one, and getting nowhere except into the record.

Albania is going in for modern improvements. First it got itself a king, which is modernism in this little Balkan state even if it isn't elsewhere. But that was only the beginning of the march of progress. Simultaneously the streets of its capital, Tirana, were illuminated with electric lights and the first daily paper came off the press. This much having been accomplished the rest ought to follow thick and fast. In no time at all we anticipate hearing that Albania has a parking problem, petting parties, short skirts, bobbed hair, golf and a good roads movement. The world does move, and even little forgotten, out-of-the-way places like Albania have to move with it.

Juliu Maniu, Rumania's new premier and his peasant cabinet, were received by Queen Marie and later by Princess Helen, mother of seven-year-old King Michael. M. Maniu announced that the peasants had the greatest sympathy and respect for the royal house and would support the dynasty loyally. Which means exactly as much as when a Bratianu promised to support the dynasty. Marie understands M. Maniu and his peasants. They will now proceed to do exactly as they like.

The Panama Canal refused to let politics interfere with business during October, for 557 commercial vessels were locked through during its thirty-one days and tolls of \$2,274,045 were collected, both facts constituting records for any month in the year. The business conducted by the canal is only a part of its usefulness, however, for the linking of the Pacific and Atlantic international understanding.

The fact that more youths are going to college helps, of course, to account for the increasing number of manufacturers who are set down as college boys. But it may be, if we are going to admit everybody, that we shall have to make special provision for those who just can't get along without thrills.

Rudyard Kipling has begun to copy-right his speeches. It oughtn't to prove such a bad idea. Suppose American politicians were to follow his example, and were to refuse to give the newspapers the right to use their speeches. What a peace would settle on the campaign!

Perennially we read in the news about some worthy citizen being gored to death by a bull. The tragedy is hardly rendered less poignant by the circumstance that the animal is usually regarded as harmless and is treated as a "pet." There is so such animal as a perfectly safe bull.

A veteran drill sergeant, accustomed to the rooky's penchant for getting under way on the preparatory command, must cover the job of traffic policeman for a half hour's exercise of his rusty vocabulary when he sees pedestrians stepping off with the amber light.

Eggs Long Human Food
Eggs appear to have been used as a food in all ages. The ancient shepherds in the Far East were accustomed to carry them in a sling. Homer says that the Romans began their meals, or supper, with eggs. It is probable that they formed one of the main foods of primitive mankind.

LAST NIGHT on the RADIO

Reception generally has been fairly good for several nights, with only the normal amount of local noises, fading and distortion. One of the best DX stations is WHAS at Louisville.

Several popular song and dance tunes that have enjoyed wide favor during recent months are included in the Stromberg-Carlson program of Tuesday, January 25, given through stations of the National Broadcasting Company from 8 to 9:30. "Girl of My Dreams" will be played as a guitar solo and Ole Speak's "Sylvia" as a saxophone solo. Among the quartet offerings will be a serenade to that fair co-ed, "The Sweetheart of Sigma Chi." Other older favorites for quartet as well as violin and vibraphone complete this program.

Dire prophecy in a small New England village and the strange events which followed will be broadcast Tuesday evening at 7:30 when the Scotland sketch, "A New England Prophet," by Mary E. Wilkins, is presented through the allied stations of the National Broadcasting Company.

One of the big features of the "Voice of Firestone" program Monday evening, January 25, over 42 stations associated with the National Broadcasting Co., will be Fritz Kreisler's "Caprice Viennois," a

superb composition which should thrill all music lovers. It will be rendered by the Firestone 25-piece orchestra under the direction of Hugo Mariani. Franklyn Burr, tenor, exclusive Firestone artist and exclusive recording artist for Victor, will be featured in Mousie's beautiful "Song of Songs," "The Blue Room" from "The Boy Friend," and "Brown Bird Singing," the latter a charming lyrical composition by Harrie Wood. Other interesting numbers on the Firestone program are Vaughan De Leath in "Carolina Moon," "When Day is Done," rendered by an orchestra and choristers, and an ensemble presenting selections from the popular musical show, "The Pink Lady."

Adrian Schubert, conductor, and Lewis James, tenor, will present an entertainment of popular classics and ballads in the Oldsmobile Hour of the General Motors Family Party on Monday evening.

The Thing That Counts
It is the edge and temper of the blade that makes a good sword, not the richness of the scabbard, and so it is not money or possessions that make men considerable, but virtue—Senecca.

Phillies Have High Prospects

Philadelphia, Jan. 24 (AP).—The new and sparkling material, the most of the weak gaps apparently plugging up the Phillies look toward the 1929 National League pennant through rose-tinted glasses.

Not since the championship days of 1915 and 1916 have they boasted such excellent prospects or felt so hopeful over an approaching baseball season.

New blood has been brought into nearly every position. The pitching staff has been strengthened and the Phillies have a great young shortstop in Tommy Thoren, for whom they are reported to have given three players and \$10,000 in cash. One of Manager Hurt Shotton's most recent moves was to cast aside two veterans, Jimmy King, pitcher, who was given his unconditional release, and John Schulte, who was sold to Columbia of the American Association.

Don Hurst, who hit 18 home runs last season, will be on first base, and Franco Thompson on second with Tavenner at shortstop. Pinker Whitney, who batted above .300 last year, will be at third to round out a well-balanced infield. As infield re-signments Manager Shotton has Terry Lyons, from the sandlots of St. Louis; Fiberg, and Joe O'Rourke, son of the Phillies' chief scout.

The outfield will be made up of Lefty O'Doul, obtained from the New York Giants; Danny Southern, a youngster; Homer Peel, from Houston, Texas, and Chuck Klein, with C. Williams, home run slugger, as the leading reserves.

Lorian, Davis and Susce will be in charge of the catching department. Susce is a youngster from the University of Pittsburgh.

Should he be able to obtain an experienced relief pitcher, Manager Shotton said he would not hesitate to predict the Phillies would finish among the leaders.

The regular staff of Benge, Milligan, Ferguson, Baecht, Sheetland, McGraw, Ulrich and Willoughby has been augmented by five youngsters. Caldwell, from Waco; Phil Collins, from Birmingham, and Luther Roy from Birmingham, are considered the most promising of the younger pitchers. Then, there are Walker, a Philadelphia boy, and Derhan, a product of the Virginia League.

The Phillies will start spring training at Winter Haven, Fla., with their best prospects in years.

Agitation Is Old.
Agitation for a shorter work day, stated concretely as a demand for a 10-hour day instead of the dawn-to-dark day, was begun in the United States in 1830.

Ethel Lackie Retires From Swimming World

Miss Ethel Lackie, veteran of the nation's ranking girl swimmers, has retired from amateur competition. Following the example of Johnnie Weissmuller, Miss Lackie has decided to forsake the amusements for more lucrative occupations. Together with Weissmuller, Miss Lackie, who holds six world's sprint swimming records, made her final amateur appearance at the Cook County Interscholastic Swimming championship meet.

Like Weissmuller, Miss Lackie felt that she had been in competition a long time and swimming for "glory only" was beginning to lose some of its thrill.

She began her series of sensational swimming performances five years ago as a member of the Illinois Athletic club. When that organization disbanded its women's teams she continued her record-breaking performances under the colors of the Illinois Women's Athletic club.

She holds the United States indoor championship at 100 yards, and in 1924 won the 100-meter championship at the Olympic games, returning to this country to win the 100-yard outdoor title.

Horton Smith Is Newest Sensation in Golfdom
Horton Smith of Joplin, Mo., twenty years old, the newest sensation in golf circles, won the Catalina open title by defeating Walter Hagen, British open champ, one up in 72 hole final. Smith's four rounds totaled 243, the 18 hole scores being 61-63-61-63. Smith will compete in many of the southern tournaments during the present season.

Ban Johnson Is Opposed to Heydler's Ten-Man Plan
Ban Johnson, retired president of the American league, is opposed to John Heydler's plan for ten-man baseball teams.

"The ten-man team idea does not appeal to me at all," he said. "It destroys the original thought in baseball of a team of nine men, and of each man being an athlete and a ball player who bats and runs and throws."

"I would suggest that instead of a ten-man team a rule be provided limiting the manager in the number of substitutes he may use," he said.

Johnson expressed opposition to the "chain store" or "farm" system, whereby major league clubs own and operate minor league teams, declaring that the system "is detrimental to the best interests of the game."

Tia Juana's Futurity Is Attracting Youngsters
The cream of the nation's two-year-old crop, present yearlings, will vie in the \$7,500 added Tia Juana futurity, to be run March 31, according to the list of nominations made public by Jockey club officials. One hundred and eight of the best bred yearlings in the country have been named.

The Tia Juana futurity is the West's greatest stake for two-year-olds. It is at five furlongs, a true test for the youngsters in the spring of the year. Owners of the crack youngsters have been exceedingly liberal in their nominations. It was particularly gratifying to westerners to see so many California and Nevada breeding establishments name their best get for this rich stake.

Liars
The trouble with a little lie is that it is usually weak in the foundation or somewhere in the structure and it requires some large, strong lies to make it stand up when the wear and tear comes.

Daily Health Hint
Tremor of the hands is common in the old. In younger persons it may be due to fatigue or general nerve weakness caused by loss of sleep, abuse of alcohol and tobacco, too much night life, etc.

David N. Turner Guest of Honor

David N. Turner of 68 Lucas Avenue was the guest of honor at a testimonial dinner given in the private dining room of the Hotel Stuyvesant Wednesday evening, January 23, in recognition of his 35 years of faithful service with the Prudential Insurance Company of America. The event will long be remembered by those who were present.

After enjoying a well served turkey dinner with all that goes with it to make up a fine meal, Assistant Superintendent Clarence D. Myers, for the past 25 years an employee of the insurance company, was called upon by Superintendent W. Alexander, who presided, to act as toastmaster. Prudential employees called upon by Mr. Myers spoke in glowing terms of Mr. Turner. All the speakers were men, employed by the Prudential Company for at least 15 years. The service record of the 15 present totaled 281 years.

Previous to the speeches, Mr. Turner was presented with a gold badge on which is inscribed P. O. Y. 35. On the reverse side of the shield is a large diamond.

A week ago B. J. Callahan was the recipient of a gold locket given him to commend his 20 years of service as a Prudential agent.

Among those present at the testimonial dinner for Mr. Turner were Superintendent W. Alexander, Assistant Superintendents C. D. Myers, E. E. Wilber, D. N. Turner, B. Silverman and agents W. Van Wyman, P. Burger, Arthur E. Fromm, J. Reynolds, H. Weeks, A. Mowell, P. T. Murphy, L. Miller, A. Cerullo, E. R. Jacobs, H. Mays and B. J. Callahan.

CURRENT OFFERINGS AT THE THEATRES

Bows to Enhance Milady's Costume

Decoration Is One Detail Taken From Fashions of Years Ago.

As the well dressed woman twirls before the mirror another detail must be checked by her discriminating eye—the adjustment of the bow. For bows large and bows small, bows that lie under the skin and bows that pose on top of the shoulder like a bird with wings full spread, are earmarks of the smart costume, says a fashion writer in the Kansas City Star.

This is one of the details taken from the 1890 mode, the period influence of today's silhouette; but with a difference. The bows of today may be a crisp four or six-inch sash of moire or taffeta ribbon, tied in a butterfly bow and posed at the waistline of an evening gown which has a fitted bodice and a natural waistline. These bows sometimes simulate the bustle of 1890, a suggestion only of that fashion, for the silhouette has still the goddess of slenderness for its guide.

A bow of velvet ribbon may catch a group of boucles at the side front. Any number of interesting arrangements mark its use. On the afternoon dress it is a decorative note in chiffon and velvet. And in the trend short costume the bow of crepe, fully six to ten inches wide, is tied at the

top of the V neckline of the blouse or a narrower tie frankly fashioned in a bow with Peter Pan collar. In many instances it is a scarf tied.

The little Chanel bows, so perky and decorative, started the vogue of the bow as a simulated fastener. It has only come into its own, in the rise of the frilly and fluffy mode.

Another decorative note is the return of cavalier cuffs. These are now a style note in the dresses for the South, the cuffs so designed that they do not interfere with the carrying of a muff. After all has been said against the return of the muff with no less authority than Madame Charlotte of the house of Prebent saying it cannot stage a comeback, the muff does return in the smartest circles.

Not a melon muff, but very often a flat fold of broadtail lined with gay crepe and adorned with a bow of fur right in the middle, applied very flat. The muff matches the close-fitting fur hat. Perhaps the rise of the suit has given a boon to the vogue for the muff.

Crystal and Strass Are Used as Ornamentation

Shimmering gowns of crystal and strass have a great appeal to the majority of women. They are universally becoming, and while their popularity may wane on occasion, they never stay long in the background of fashion.

A lovely scintillating gown uses white chiffon and satin for a background for the crystal and strass ornamentation. The skirt is achieved by using strips of chiffon that shade from white to gray and terminate with black. The long, close-fitting bodice is elaborately embroidered with the beads.

Bed or Lounging Jacket Among Latest Novelties

Taking a hint from both the cocktail jacket of the hour and the general popularity of knitted things, the bed or lounging jacket arrives, beautifully knit in a lace pattern in the Shetland manner. This is so fine as to seem fragile and anything but warm, but it is lined with a sheer silk. A jacket of this fine rare perhaps is more practical than one of quilted silk, however frigidous and gossamer it appears, for it may be easily and quickly cleaned.

Zig-Zag Model

A light cloche hat, with wider right brim than left, has one side terra cotta, the other brown. The colors join in a zig-zag line from back to front.

Chicago's Liberty Bell

The Columbia Liberty bell was cast at the foundry of the Mercury Bell Company, Troy, N. Y., in 1860, and weighed 12,000 pounds, the diameter at its mouth being 66 inches and its height 27 inches. It was a duplicate of the New Liberty bell that was placed in the tower of Independence Hall, Philadelphia, in 1870, and was cast from the same molds. Each thousand pounds represented one of the thirteen original states. The exact cost of the bell is unknown, the records no longer being available. The bell was bought by a committee representing patriotic societies of which the late W. O. McDowell of Newark, N. J., was chairman. At the conclusion of the Chicago World's fair the bell was exhibited in various cities throughout the United States.

Much Older

They had been up to town to see the latest musical comedy, and were discussing its merits as they traveled homeward in the train.

"I think I liked the bad man best of all," declared the girl. "He was so very natural in everything—and oh, what lovely hair—so black and curly!"

The young man beside her cursed inwardly. He was very fair.

"What did you think of the big chorus of twenty-two?" he ventured, to change the subject.

"They were more than that," declared the girl decisively. "There wasn't one under thirty, in my opinion."—London Answers.

Quakers in World War

The selective service law in vogue during the World War provided exemption to "a member of a well recognized religious sect or organization, organized and existing on May 18, 1917, whose then existing creed or principles forbid its members to participate in war in any form, and whose religious convictions are against war or participation therein." This selective service law applied to Quakers as well as many other religious sects. However, there were numbers of Quakers who served in our active fighting forces.

Air's Temperature

The temperature of the air at a given place depends not only on the sunshine it is then getting but also on its own recent history. Wind from the south on a cloudy day may be as warm as wind from the north on a sunny day. This is particularly true when, as often happens, these winds have come a long way. Furthermore, when it is warm, humid air feels warmer than dry air at the same temperature.—Washington Star

Whence Name "Sardine"

The sardine probably gets its name from the island of Sardinia, in the Mediterranean sea, where the small pilchards used for canning abound.
